RE: Building 964 Facility Component Removal, Size Reduction, and Decontamination Activities RSOP  
(Component RSOP), Six Point Analysis - Concurrence

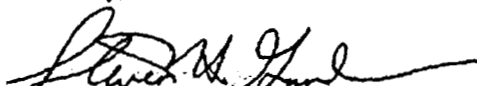

Dear Mr. Legare:

The Colorado Department of Public Health and Environment, Hazardous Materials and Waste Management Division has received your July 19, 2004 Component RSOP Notification letter including the Six Point Analysis of B964 as specified in Section 3.8.1 of the Component RSOP.

On June 28, 2004, we previously provided concurrence with the Type 2 determination for B964 and agreed that the removal of contaminated siding and roofing could occur utilizing the Component RSOP. However, as requested in your July 19, 2004 letter, we again agree and concur that, based on the 6 point analysis and other information previously provided, decontamination activities and removal of the contaminated sections of the roof and walls may be performed utilizing the Component RSOP.

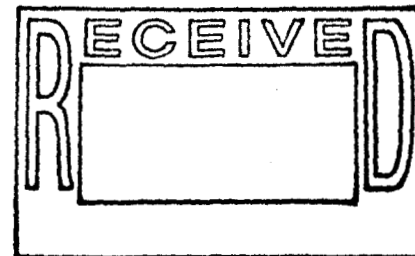

If you have any questions regarding this correspondence please contact me at (303) 692-3367, David Kruchek at (303) 692-3328.

Sincerely,

  
Steven H. Gunderson  
RFCA Project Coordinator
